Select your Excess Option for Premium Accounts

² Lite plus and Premium accounts are unlimited. Speed is reduced to 72 kbps once the Monthly Allowance is reached. Once you reach 120% of your monthly download allowance your connection will be shaped further to 33 kbps Shaping provides full access to the Internet at a reduced speed of your ADSL service. Alternatively, you can choose to pay \$10 per GB for excess downloads and access the Internet at full speed. Please note: New Members must select their excess option i.e. shaping or \$10/GB, during the sign-up process. Please note that Free Traffic (WestNet Neighbourhood) and Static IP are not available on Lite plus accounts.

- Shaped or
 \$10 per GB

Static IP Address

A Static IP Address is an optional extra not required for general Internet use.

Peak times are 7am to Midnight, 7 days a week. Off-Peak time are Midnight to 7am, 7 days a week.

ADDITIONAL

EMAIL VIRUS SCANNING - \$20.00 per year

The email antivirus service works by scanning all your incoming mail for viruses. If a virus is detected, the entire message is quarantined on WestNet's servers and a notification message is sent to you detailing the infection.

EMAIL SPAM FILTERING - \$10.00 per year

Spam can be difficult to detect; hence the prevention of spam can also be very difficult. The method we will be using does not guarantee that you will not receive any spam, but it will significantly reduce the amount of spam you receive.

¹ Any excess downloads will be charged at 10c/MB which is capped at \$49.95 for Lite 256k. Speed is reduced to 72 kbps once you have reached your monthly cap. Lite account is neither eligible for a static IP nor eligible for free traffic.
